23. Problem: (use additional Sheets if necessary)
This TE is primarily to deliver the fix for same Joliet name where no DVDs were produced. The mkisofs freeware COTS product needs to be upgraded to support the custom code fix for NCR ECSed38442. This is an amendment to the original CCR 03-0818 adding NCR ECSed38785 to the list of NCRs and removing the reference to TE_6A.08_PDS.04 requiring to be installed.

24. Proposed Solution: (use additional sheets if necessary)
Install TE_6A.08_PDS.05 to close the NCR written against the ECS baseline for the PDS subsystem.

25. Alternate Solution: (use additional sheets if necessary)
None

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
The data that was requested with the same Joliet name will not be able to be made available to customers.

27. Justification for Emergency (If Block 15 is "Emergency"):
Testing completed 24 hours prior of scheduled delivery.
